COME EXPLORE THE SKA!

Thank you for picking up our catalog! Inside you will find all the merchandise we offer, all dedicated to our one unifying love - SKA music. Which leads some of us to an obvious question.....

What is SKA Music? - *the grandfather of Reggae*

First and foremost, SKA is the original music of Jamaica, which gave birth to Rock Steady and Reggae. It is similar to R&B, swing and early rock - big horns, a boogie-woogie dance beat and a happy outlook, only with that particular off-kilter rhythm. It was revived in England by 2Tone bands such as the Specials, the Selecter and Madness, this time with a more modern rock approach.

Today, a '3rd Wave' of ska is nigh, with bands such as those featured in the Moon roster leading the pack - the first four pages that follow highlight the Moon releases, while the next 12 cover other ska releases from around the planet. The sound of ska today is different than the original Jamaican sound - the variety is endless. From the ska-rock sound of Spring Heeled Jack to the traditionalist sound of Bluebeats to the power-pop ska of the Toasters, what is being done within the framework of ska makes it one of the most happening underground music genres today.

What is the Moon SKA NYC Record Label? - *a ska-only music label*

As you can see from this ever-expanding monster catalog, Moon SKA NYC is the world's #1 source for SKA music. Operating since 1983, baby, Moon has released albums by leading ska artists such as the Toasters, the Scofflaws, the NY Ska Jazz Ensemble and the NY Citizens (NYC), Let's Go Bowling and Hepcat (CA), the Allstonians and Skavovvie & the Epitones (Boston), the Pietasters and the Skunks (D.C.), as well as the Busters (Germany), Arsenal's (Canada), Porkers (Australia), House of Rhythm and Laurel Aitken (England.)

Additionally, we have produced assorted compilations of many different bands, such as our annual *Skarmageddon* series (each volume is a double-disc dose of the latest, greatest and strangest ska music being made today), *California Ska Quake*, *Closer Than You* (all Florida ska), and the *100% Latin SKA* compilation (comprised of SKA bands from all over South America, Spain and Puerto Rico.) Moon compilations have featured the debut appearances of other bands, like the Dance Hall Crashers, Skankin' Pickle and No Doubt.

Now ya know! Take a gander through these pages, then check out the ordering instructions and form at the back. If you're still unsure, call us up and ask for recommendations based on what you like! And if you're impatient, you can always give us a shout on (212) 673 3359 and order everything in the catalog with a credit card!
